

## Paintbrush Division

The jars in each row need to be filled with the same number of paintbrushes. Draw the paintbrushes in each jar and complete the number sentence.

Total number of paintbrushes:  
12

Paintbrushes in each jar: \_\_\_\_\_

$$12 \div 3 = \underline{\quad}$$

Total number of paintbrushes:  
8

Paintbrushes in each jar: \_\_\_\_\_

$$8 \div 4 = \underline{\quad}$$

Total number of paintbrushes:  
12

Paintbrushes in each jar: \_\_\_\_\_

$$12 \div 2 = \underline{\quad}$$

Total number of paintbrushes:  
15

Paintbrushes in each jar: \_\_\_\_\_

$$15 \div 5 = \underline{\quad}$$

Total number of paintbrushes:  
18

Paintbrushes in each jar: \_\_\_\_\_

$$18 \div 3 = \underline{\quad}$$

Total number of paintbrushes:  
20

Paintbrushes in each jar: \_\_\_\_\_

$$20 \div 4 = \underline{\quad}$$

Complete the chart.

	Number of Paintbrushes	Number of Jars	Number of Paintbrushes in Each Jar
7.	24	4	
8.	21	3	
9.	30	5
